Email: spurthichavan@gmail.com | LinkedIn: <https://linkedin.com/in/spurthi-chavan-891645262>

SUMMARY

Cloud and DevOps enthusiast with hands-on experience in AWS cloud services (EC2, S3, VPC, IAM, RDS), Docker containerization, Kubernetes orchestration, and CI/CD pipeline automation using Jenkins. Skilled in Linux administration, Git version control, and cloud infrastructure deployment. Experienced in building scalable architectures, automating deployments, and monitoring cloud systems. Seeking an opportunity as a Cloud / DevOps Engineer to contribute to reliable and efficient cloud infrastructure.

EDUCATION

Bachelor of Computer Application (BCA)

KLS Gogte College of Commerce, Belgaum, Karnataka | Sep 2022 – May 2025 CGPA: 9.32

Pre-University Education (PCM)

Jain PU College, Belgaum, Karnataka | Jul 2020 – Apr 2022 Percentage: 64%

Secondary Education

Gomatesh High School, Karnataka Secondary Education Examination Board | Jul 2019 – Jun 2020
Percentage: 75.68%

TECHNICAL SKILLS

- **Tools And Technologies:** AWS (EC2, S3, VPC, IAM, RDS, EBS, AMI, CloudWatch, Auto Scaling)
- **Operating Systems:** Linux (Amazon Linux, Ubuntu), Windows
- **Version Control:** Git, GitHub
- **Programming:** Python, Shell Scripting, HTML, CSS
- **Networking:** TCP/IP, DNS, Subnet, Route Tables, NACLs, Security Groups
- **DevOps Tools:** AWS CLI, Jenkins, Docker, Kubernetes, Terraform

PROJECTS

1. AWS VPC Multi-Tier Architecture

- Designed and deployed **multi-tier architecture on AWS VPC** with public and private subnets across multiple Availability Zones.
- Configured **EC2 instances, IAM roles, security groups, and network access control lists (NACLs)**.
- Implemented **NAT Gateway and Internet Gateway** for secure internet access.
- Enabled **CloudWatch monitoring and logging** for system performance

2. Static Website Hosting on AWS

- Deployed a **static website using AWS EC2 and Apache Web Server**.
- Configured **security groups and firewall rules for HTTP, HTTPS, and SSH access**
- Implemented AWS best practices to ensure **secure and scalable hosting**

3. Nodejs App CI/CD Pipeline using Jenkins | Mar-2026

- Designed and implemented CI/CD pipeline for Node.js application using Jenkins
- Automated build, testing, and deployment processes
- Integrated **GitHub repository with Jenkins for automated build triggers**
- Containerized application using Docker for consistent deployments

4. Online Book Recommendation System

- Developed a **full-stack web application using Django and MySQL**.
- Implemented **collaborative filtering algorithm for personalized book recommendations**.
- Built **shopping cart, secure authentication, and category-based book search**.
- Managed backend database using MySQL for storing users and orders.

CERTIFICATIONS

- Master in Cloud Architecture — Fortune Cloud Technologies (*Ongoing*)
- Front-End Development Certificate
- Hashgraph Developer Course
